Basic Books. Hardcover. Book Condition: New. Hardcover. 312 pages. Dimensions: 9.3in. x 6.4in. x 1.3in.Whether its brusque, convincing, fraught with emotion, or dripping with innuendo, language is fundamentally a tool for conveying meaninga uniquely human magic trick in which you vibrate your vocal cords to make your innermost thoughts pop up in someone elses mind. You can use it to talk about all sorts of thingsfrom your new labradoodle puppy to the expansive gardens at Versailles, from Roger Federers backhand to things that dont exist at all, like flying pigs. And when you talk, your listener fills in lots of details you didnt mentionthe curliness of the dogs fur or the vast statuary on the grounds of the French palace. Whats the trick behind this magic How does meaning workIn Louder than Words, cognitive scientist Benjamin Bergen draws together a decades worth of research in psychology, linguistics, and neuroscience to offer a new theory of how our minds make meaning. When we hear words and sentences, Bergen contends, we engage the parts of our brain that we use for perception and action, repurposing these evolutionarily older networks to create simulations in our minds. These embodied simulations, as theyre called, are what makes it possible for us to become better baseball players by merely visualizing a well-executed swing; what allows us to remember which cupboard the diapers are in without looking, and what makes it so hard to talk on a cell phone while were driving on the highway. Meaning is more than just knowing definitions of words, as others have previously argued. In understanding language, our brains engage in a creative process of constructing rich mental worlds in which we see, hear, feel, and act. Through whimsical examples and ingenious experiments, Bergen leads us on a virtual tour of the...
