RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. OCLC Number: (OCoLC)37386699 Subject: Medical care -- Law and legislation -- United States. Excerpt: . . . B-257739 so. In one study, for example, patient care as expressed in living wills was 23 provided 75 percent of the time. A variety of factors affects whether an advance directive actually controls end-of-life care decisions, including the availability or specificity of a living will, family wishes, physicians attitudes, and legal issues. Although advance directives may be effective in designating proxy decisionmakers, there is evidence that health care agents may not accurately express the patients wishes. Furthermore, some patients may want their physicians or agents to override their advance directives in some cases or at least interpret them with broad discretion. Experts agree that the effectiveness of an advance directive is contingent upon the patients discussions of end-of-life treatment preferences with those who may need to make such medical decisions, be they providers or health care agents. Better communication with patients may help physicians in interpreting living wills and improve the accuracy of proxy assessment of patient treatment wishes. The patients advance directive may not be followed simply because...
