Brand New Book ***** Print on Demand *****.The 107th Congress addressed a broad range of civilian, military, and commercial space issues, many of which are expected to be of interest to the 108th Congress as well. The National Aeronautics and Space Administration (NASA) conducts the most visible space activities. NASA s International Space Station (ISS) program is the most controversial because it is over budget, behind schedule, and relies on Russia for some hardware and services. Nevertheless, it has survived 22 termination attempts in NASA funding bills since 1991. Other NASA issues are whether NASA is adequately managing its flight programs, ensuring the safe operation of the space shuttle, effectively developing new launch vehicles, and facilitating space com- mercialization. NASA requested $14.5 billion for FY2002; Congress approved $14.9 billion. The FY2003 request is $15.0 billion ($15.1 billion if federal retiree costs are included). Congress did not complete action on the appropriations bill that funds NASA (VA- HUD-IA). The agency is operating under the Continuing Resolution at FY2002 levels.
