paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 210 Publisher: Zhejiang University Pub. Date :2010-02-01 version 1. This book is based on the Ministry of Education. Higher Education in the 21st century teaching contents and curriculum reform plan. the basic spirit of the independent Institute of Advanced mathematics curriculum and written materials. Book is divided into two volumes. the main contents include: functions of one variable calculus. infinite series. ordinary differential equations. vector algebra and analytic geometry of space. multi-function calculus. This book can be used as an independent college science. engineering. economics. management. and medicine and other professional teaching advanced mathematics courses. but also for other undergraduate institutions of higher mathematics courses use teaching materials. Contents: Section I of Chapter VIII of ordinary differential equations of the initial concept of first order differential equations II III IV can be reduced-order differential equations of second order linear differential equations of second-order structure of V constant coefficient second-order homogeneous linear differential equations with constant coefficients VI non-homogeneous linear differential equations * Section VII solution of differential equations with constant coefficients linear differential equations for example application of section VIII. IX. for example * Exercise eight differential equations Chapter vector algebra and analytic geometry of space Section II vector space Cartesian coordinate system. vectors and vector operations of linear coordinates the third quarter the number of vector product and vector product with the fourth plane equation linear equation of the first space five surface equation and the equation of space curves Exercises Chapter nine multi-function multi-function differential learning the basic concepts of Section II Section III multi-partial derivative partial derivative of composite function implicit function of the fourth partial derivative of V all Section VI curve of...
