The projects range from a cord necklace, a lei like ruffled scarf and a stuffed octopus to baby blankets, lace shawls, sweaters, hats (even a Sorting Hat a la Harry Potter), socks and mittens. Throughout the book are fascinating, easy to understand explanations of the maths underlying the stitches and the architecture of the flat and dimensional shapes that can be formed using this method. A carefully curated selection of projects, clear instructions and beautiful photography and illustrations assure that knitters of all levels and inclinations, whether they are technique junkies or just like to follow the directions and make pretty things will want to have this book.
