The Elements of Plane and Spherical Trigonometry (Paperback)

Filesize: 9.54 MB

Reviews

If you need to adding benefit, a must buy book. It can be loaded with wisdom and knowledge I discovered this ebook from my dad and i encouraged this pdf to discover.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: .be constructed geometrically. 2. Assume values for N and n in the expression--and determine four angles, each less than 3, that can be constructed geometrically. Thus, let N=6, n = 3. Then, f-f = 45 . We shall now show how to find the functions of 3, and from them the functions of any multiple of 3. Since From either of these the other functions may be found. For the angle 18 let AB = x be the side of the regular inscribed decagon, and let AO = R (Fig. 42). Then, by geometry, R--x: x--x: R; whence, x--. sin 18 =-----=: AO 4 By successive applications of formulas (9) or (11) we can find the sine of the sum or difference of any two multiples of 3 whose sines and cosines have been previously found. Having found the sine and cosine of any angle in the series of multiples of 3, we may find the sine and cosine of half the angle by formulas (25) and (26). We may, therefore, find the sine, the cosine, and the other functions of any angle included in the form, given above. MISCELLANEOUS EXERCISES 1. Find the values of the following in the form of surds as above: cos 3, cos 33, sin 57, cos 6, sin 93, cos 12, sin 36, cos 7 30 . 2. Prove the relation P2 = H2 + D2, where P, H, D are the sides of the regular inscribed pentagon, hexagon, decagon...
