Brand New Book ***** Print on Demand *****.Excerpt from Methods of Teaching: Including the Nature, Object, and Laws of Education, Methods of Instruction, and Methods of Culture The aim of the author in preparing this work has been to write a book which would commend itself to all progressive teachers for its practical value. He has endeavored to present only such methods as have proved valuable in practice, and such as every young teacher will be safe in adopting. Where a method has seemed to him either unphilosophical or of little value in practice, the author has not failed to condemn it, however eminent the theorists who have been its advocates. The book is designed not only as a textbook for the use of Normal Schools and Normal Classes, but also as a handbook for the use of students who are preparing to teach, but have not an opportunity of taking a course of professional instruction. It is designed also to afford help to those who are already engaged in teaching, and are desirous of improvement by professional reading. About the Publisher Forgotten Books...
