By James Scott

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Right now you are in a battle to protect yourself and your family from hackers and there is no white knight on horseback galloping to your rescue. Most of the so called experts in the yellow pages are upstarts who, in most cases, know just as much as you about the problem but compensate by using virus scan programs that offer the illusion of expertise. Most computers have boilerplate antivirus and perhaps some sort of firewall but this is hardly enough to thwart malicious hackers from breaching your system. The weakest link in cybersecurity is the human factor. You ll get an email that looks like it s from your boss or child s school, you ll click the link and in microseconds your computer is contaminated with a virus that incapacitates your PC and you realize you ve just been Pwned! Not all hackers are bad but those who have malicious intent are typically categorized as script kiddies, hacktivists, mercenaries or state sponsored. Each group carries with it a different motivation, target to breach...
