GENESIS, FAITH AND SCIENCE LET THERE BE LIGHT

DOWNLOAD

Dorrance Publishing. Paperback. Book Condition: New. Paperback. 10 pages. Dimensions: 8.6in. x 5.7in. x 0.2in.Creationisms literal interpretation of Genesis is not valid; Intelligent Design is superseded. An analysis of the Creation texts in Genesis using current scientific knowledge shows a Creator intimately involved with perfecting His work. Gone, too, is any possibility for spontaneous evolution, yet Adam may have been selected from a pool of near-human creatures. How he was different from these, and what has been their fate is part of this analysis. In Genesis, Faith and Science: Let There Be Light, Russ Breighner specifically relays the plea of the current pope, Pope Benedict XVI, who makes a case for the squaring of science and religion. The pope accepts the Big Bang theory and the science of an evolving cosmos, holding that no laws were miraculously broken. Science and faith are complimentary paths to discovering truth. Any animosity between them is out of place. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
