Dangerous Mind: On the Origin of Pseudo Species

By Christopher Malden

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 238 pages. A searching critique of our ideas about human evolution, this book offers a new theory that helps to explain why man is so different from other species. The Author demonstrates how recall and memory played a vital part in mankinds evolutionary dominance, to the detriment of all other species. Recall was born in man and changed him completely. It may have been a mutation, the result of a beta radiation hit on a particular gene around 5-7 million years ago. At that time recall enabled man to grasp the difference between before and after. So the afect he himself had on the environment became apparent. He was able to fashion tools in a manner far superior to anything any other creature could accomplish, even our close primate cousins. Flint, bone and skins from other animals allowed him to imitate the claws, teeth and strong hides of far larger predators. So man side-stepped evolution. He became, in the Authors definition, a pseudo species. The prime characteristic of a pseudo species is that normal evolution is by-passed. Evolution takes place in the abstract, unaffected by physical effects of...
